

About People at School

Book 2

Name: _____ Date: _____

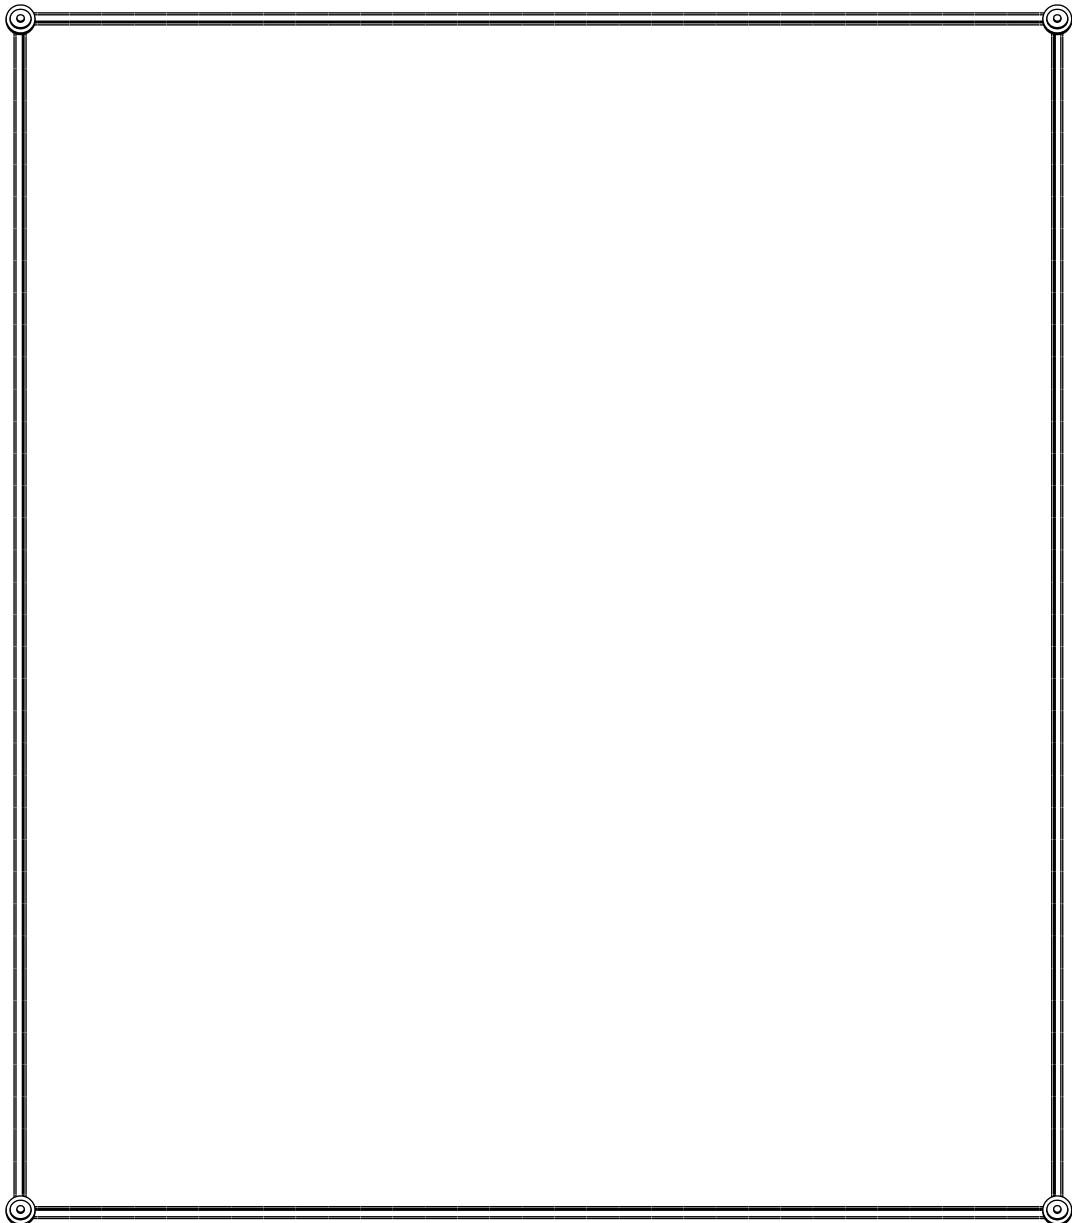

These worksheets require teachers to assist children to fill in names of people they work with at school. They should also encourage children to write a second sentence about the person. It will help, if any words the children might have picked up be included in these sentences. This will help to track any progress that may be made. When doing these worksheets, teachers please read the sentence to the student, and fill in missing words and sentences. Encourage children to read their work back as regularly as possible.
