

Estimate and then measure these things.

You can use a ruler or a tape measure.

If you do not have a ruler or a tape measure, then think about how many **hands** long it is.

object	guess	measure
door (width)		
cup		
bed		
rubbish bin		
table		
window		
chair (height)		
plate		
a family member		

Estimate and then measure these things.

You can use a ruler or a tape measure.

If you do not have a ruler or a tape measure, then think about how many **hands** long it is.

*Measure using TWO different measures (maybe cm and hands or arm lengths - or even pencil lengths) Why do you think pencil lengths is not a common measuring method?

object	guess	Measure 1	Measure 2
door (width)			
cup			
bed			
rubbish bin			
table			
window
