

Date: _____

Dear Carer/ Parent

To help children in _____ to identify habits that prevent them from making progress at school, we work with children to help them identify what they need to change.

The children write a letter home that identifies what they need to change.

This system has not been effective enough in helping _____ to reduce these habits and focus more fully on work.

I have therefore introduced a daily behaviour Plan.

This plan will track behaviour over the day in more detail and will provide more detailed evidence. If we need to go further, this evidence will be used to identify further strategies that we may need to introduce.

_____ will need to stay back at the end of lessons so that the monitoring sheet can be filled in.

If you would like to be involved in monitoring this behaviour plan, please let me know as your support is always appreciated.

Thank you
